what is the default value for db in redis config in rails

```
adapter: redis
url: <%= ENV.fetch('REDIS_URL', 'redis://127.0.0.1:6379')
%>
password: <%= ENV.fetch('REDIS_PASSWORD',
nil).presence %>
ssl_params:
ssl_params:
  verify_mode: <%= Chatwoot.redis_ssl_verify_mode %>
channel_prefix: <%= "chatwoot_#
{Rails.env}_action_cable" %>
```

The default database (db) value for Redis in Rails, when not explicitly specified in the configuration string, is 0 .
