

Report conversation

can you reorder the columns below to be | What |
Description | When | Status |

markdown

When	Status	What	Description
later	POC	WebRTC	Browser to Agent communication
later	interrupted	Advanced Troubleshooting	
next	planned	Easy Custom Dashboards	Draw your own dashboards
next	planned	More Customizability	Set default views and filters
soon	in progress	SystemD Journal	View the SystemD journal
soon	in progress	UCUM Units	Migrate all metrics to UCUM
soon	**in progress**	Netdata Cloud	Netdata Cloud beta
soon	in progress	Click to Activate	Configure Netdata Cloud
soon	finishing	Integrations	Netdata Integrations
Jul 2023	in the	nightlies	New Agent
Jun 2023	[v1.40]	(https://github.com/netdata/netdata)	Machine Learning
			Multiple ML models per host
			SSL
			Netdata Agent gets a new SSL layer.
May 2023	[v1.39]	(https://github.com/netdata/netdata)	Microsoft Windows
			Monitor Windows hosts & VMs
			Virtual Nodes
			Go collectors can now be added
Feb 2023	[v1.38]	(https://github.com/netdata/netdata)	Netdata Functions
			Netdata beyond metrics
			Events Feed
			Live feed of events about topology
			Role Based Access Control
			More roles, permissions
Nov 2022	[v1.37]	(https://github.com/netdata/netdata)	Grafana Plugin
			Netdata Cloud as a data source
			PostgreSQL
			Completely rewritten, to reveal
Aug 2022	[v1.36]	(https://github.com/netdata/netdata)	Database Tiering
			Netdata gets unlimited metrics
			Kubernetes
			Monitor your kubernetes workload
			Machine Learning
			Anomaly Rate information

Sure, here is the table reordered according to your specifications:

What	Description	When	Status
WebRTC	Browser to Agent communication via WebRTC.	later	POC
Advanced Troubleshooting	Expanded view of dashboard charts integrating Metrics		
Easy Custom Dashboards	Drag and drop charts to create custom dashboards		
More Customizability	Set default settings for all charts and views!	next	
SystemD Journal	View the SystemD Journal of your systems on the dashboard		
UCUM Units	Migrate all metrics to the Unified Code for Units of Measure.		
Netdata Cloud On-Prem	Netdata Cloud available for On-Prem installation		
Click to Activate	Configure Alerts and Data Collectors from the UI!	soon	
Integrations	Netdata Integrations Marketplace!	soon	finishing
New Agent UI	Now Netdata Cloud and Netdata Agent share the same dashboard		
Summary Dashboards	High level tiles everywhere!	Jun 2023	[v1.40] (http://
Machine Learning	Multiple ML models per metric.		
SSL	Netdata Agent gets a new SSL layer.		
New Cloud UI	Filter, slice and dice any dataset from the UI! ML-first!	May	
Microsoft Windows	Monitor Windows hosts and apps!		
Virtual Nodes	Go collectors can now be assigned to virtual nodes!		
DBENGINE v2	Faster, more reliable, far more scalable!	Feb 2023	[v1.38]
Netdata Functions	Netdata beyond metrics! Monitoring anything!		
Events Feed	Live feed of events about topology changes and alerts.		
Role Based Access Control	More roles, offering finer control over access		
Infinite Scalability	Streaming compression. Replication. Active-active clusters		
Grafana Plugin	Netdata Cloud as a data source for Grafana.		
PostgreSQL	Completely rewritten, to reveal all the info, even at the table level		
Metrics Correlations	Advanced algorithms to find the needle in the haystack		
Database Tiering	Netdata gets unlimited retention!		
Kubernetes	Monitor your kubernetes workloads.		
Machine Learning	Anomaly Rate information on every chart.
